

**Extractor Loan \*\* Members Only\*\*  
Buncombe County Beekeepers Chapter  
NC State Beekeepers Association**

**72 hour rental \$25. Additional 24 hrs, \$25/each  
\$25 deposit (returned if brought back clean and in good condition)**

The Buncombe County Beekeepers are proud to be able to offer you the opportunity to use the extractor and refractometer without having to buy your own. You may need to show proof of membership. The extractor and refractometer rent to MEMBERS ONLY.

\$25 for 3 days. One day pickup, one day use, one day return.

Example: If you get it at 6pm Friday night, return it Monday at 6pm.

If you take it back Tuesday at 6 am, it's another "day," so another \$25 (its how most rental places work). **Cash or a check made out to BCBC** will be sufficient.

The Refractometer may be rented separately IF it is not in use for \$5/day

Please email [ExtractorRental@wncbees.org](mailto:ExtractorRental@wncbees.org) to make arrangements for the extractor of your choice first.

Directions from Asheville to 112 Old Lime Kiln Rd. Arden, NC 28704-9497

**12 miles 22 minutes**

Take Hwy 25 S/Hendersonville Rd to intersection with Airport Rd (9 mi)

Stay to the Right

Road will turn to gravel road

House 112 on left at end.

Pull in driveway and honk horn for Darrell

**DO NOT ATTEMPT TO LOAD EXTRACTOR BY YOURSELF**

**IT IS KEPT IN 2 PLACES FOR SAFE KEEPING**

You'll be given a checklist and asked to sign a statement: "I agree to be responsible for the equipment I have borrowed. If any equipment I borrow is stolen, broken by me or damaged beyond repair, I agree to pay to have the item repaired or replaced. If I have an accident or if anyone comes to harm because of this equipment, I will indemnify the club and hold harmless the BCBC Board members."

You will need a pick-up truck, SUV or large hatch back to carry this big, heavy base. You will need to bring your own tie-downs. The stainless steel drum is very dent-able and **MUST** be secured for travel.

Any questions? Call Darrell @ 828-654-7133 leave a message for return call.

### **9-Frame Power Radial w/Baldor Motor \$795**

Here is a similar extractor to what we have PLUS 3 foot square, wooden, heavy base.

From catalog; "Unless you have cranked a basket extractor you have no idea how nice this little unit is. Put in 9 super frames (either 5 3/8" or 6 1/4") or three 9 1/8" frames (cages included) and turn her on. Let the 110 volt Baldor motor and controller do the work for you. You will never regret it. You get variable speed from 0 to 500 RPM with top covers, hinges, legs, and a honey gate."

### **Very Important Note regarding the power extractor only:**

**The "all mighty" BALL BEARING at the bottom of the spindle is easy to lose so don't turn it upside down. Rinse out with cold water. If you lose it, replacement fee of this lost ball bearing is \$5. The extractor will not run if there is no ball bearing.**

**Extractor Loan \*\* Members Only\*\***

**NC State Beekeepers Association**  
**Check List**

Take only the pieces you think you will need. Check off what you take. You will need a pick up truck or hatch back car for the 4'X4' base that is used for the motorized radial extractor.

72 hour rental \$25. Additional 24 hrs., \$25/each

\$25 deposit (returned if brought back clean and in good condition)

Call Darrell @ 828-654-7133 leave a message for return call.
